Dear President Volodymyr MARCHENKO,

The CPNUE - “*Confédération du Personnel des Notariats de l'Union Européenne*” - representing the workers of notary-offices in Europe, wishes to express the pain and emotion resulting from the barbaric situation that is overwhelming your country, Ukraine, which notaries and their faithful collaborators, serve to protect legality and legal security.

For no reason in the world is the loss of civilization and war, with its consequences of pain, violence, and unacceptable violation of the freedom and dignity of individuals and of a people tolerable. Our apprehension is great, the concern for you and our colleagues and the families of all is great.

We don't have an Ukrainian association of employees as member in our Confederation. As far as possible, we ask you to extend also a special thought to the collaborators of notaries in Ukraine.

Mr. President, be strong and hopeful. For our part, as citizens of the world that repudiates war, we will support you with the means possible in the countries that are friends with you, with any form of support.

With great dismay and affection we greet you with the wish for a better world

On behalf of all notary employees in Europe

CPNUE
President

CPNUE
General Secretary
